Added white peaches, nectarines, apricots, pluots, black velvet apricots, and the strawberries are beautiful.

If you would like a 1/2 box or a \$10 bag (a certain fruit or you can say assorted) please put that in the comment box in the cart.

Please share & tell your friends - every order helps us cover these horrid fuel prices - we are doing all we can so we can continue so you can live where you want/need and have the produce plus at the same time!
